

Caledonian Syrup Extra - Technical Data Sheet

Feeding Suitability

Cattle

Caledonian Syrup Extra is made from distillery and food industry syrups with added Regulated Release protein and can be used as a replacer for pot ale syrup. It is a readily available source of energy and protein and is an ideal balancer to cereals and other low protein feedstuffs. It is highly palatable driving voluntary intakes, flows easily and helps to reduce ration sorting and dust levels.

Suitable for feeding via mixer wagon.
