

# Economol - Technical Data Sheet

## Feeding Suitability

Sheep & Cattle

**Economol is a high dry matter liquid with a high nutritive value. It has a lower viscosity than standard molasses benefiting from easier handling on farm with maximum flowability.**

**Economol is suitable for feeding in mixer wagons, forage boxes or poured over forage.**

### Benefits include:

- The most cost-effective source of sugars on farm
- Improve palatability to drive dry matter intake
- Stimulate rumen function and microbial protein production
- High in dry matter to help bind feed, reducing sorting and dust

### Typical Feed Rates

|                         | Dairy | Beef  | Youngstock | Sheep     |
|-------------------------|-------|-------|------------|-----------|
| Feed Rate (kg/head/day) | 1 - 2 | 1 - 2 | Up to 1.0  | 0.2 – 0.3 |

### Specification

|                   | Dry Matter Basis | As fed |
|-------------------|------------------|--------|
| Dry Matter (%)    | 100              | 71     |
| Total Sugars (%)  | 64               | 45.4   |
| Crude Protein (%) | 6.5              | 4.6    |
| ME (MJ/kg)        | 12.7             | 9.0    |
| Oil (%)           | 0.3              | 0.2    |
| Ash (%)           | 12.5             | 8.9    |
| Sodium (%)        | 2.3              | 1.6    |
| Crude Fibre (%)   | 0                | 0      |
| DCAB (mEq/100g)   | 34.99            |        |
