

Regumaize 65 - Technical Data Sheet

Feeding Suitability

Cattle

Regumaize 65 is a highly palatable molasses based liquid feed, rich in sugar and protein with added Regulated Release protein, designed to get the most from maize, wholecrop silage and straw. Regumaize 65 is designed for diets in which protein levels need an extra boost. Regumaize blends have a high nutrient density meaning that high levels of animal performance can be supported.

Suitable for use in all feeding systems.

Benefits include:

- Excellent source of fermentable energy and nitrogen to ensure efficient microbial protein production
- Harnesses the benefits of urea as an excellent and cost-effective protein source
- Improves palatability and intakes promoting efficient forage digestion
- Improves dietary protein balance
- Addition of non-protein nitrogen provides the rumen with a source of ammonia which acts as a growth factor for the rumen microbes

Typical Feed Rates

	Dairy	Beef
Feed Rate (kg/head/day)	0.8 - 1.5	0.8 - 1.5

Specification

	Dry Matter Basis	As fed
Dry Matter (%)	100	67
Total Sugars (%)	50	33.5
Crude Protein (%)	65	44
ME (MJ/kg)	11.4	7.6
Oil (%)	0.2	0.1
Ash (%)	10.5	7
Sodium (%)	0.2	0.1
Crude Fibre (%)	0	0

Availability:

Regumaize 65 is available in bulk from 5-29t.
Typical specific gravity of 1.28kg/L or density of 747L/T.
