

Stockmol HE - Technical Data Sheet

Feeding Suitability

Sheep & Cattle

Stockmol HE (High Energy) has all the benefits of Stockmol 20, however, it has a higher crude protein and ME content. It has a lower viscosity than standard molasses benefiting from easier handling on farm with maximum flowability. Stockmol HE is ideal for use in home mixes to help reduce dust levels.

Suitable for all feeding systems.

Benefits include:

- High nutrient density providing a rich source of sugars, protein and organic matter
- Improve palatability to drive dry matter intake
- Stimulate rumen function and microbial protein production
- High in dry matter to help bind feed, reducing sorting and dust
