

Highland Blend - Technical Data

Feeding Suitability

Cattle

Highland Blend is ideal for use in dairy and beef diets where TMR mixes require palletising and de-dusting. Its lower viscosity will allow excellent absorption within a TMR mix or when poured over forage. Ideal for use in a balanced ration where barley will be used.

Highland Blend provides the palatability and energy of molasses balanced with the protein from distillers' co-products.

Suitable for feeding in mixer wagons, forage boxes or poured over forage.

Typical Feed Rates

	Dairy	Beef	Youngstock
Feed Rate (kg/head/day)	1 – 2	1 – 2	Up to 1.0

Specification

	Dry Matter Basis	As fed
Dry Matter (%)	100	55
Total Sugars (%)	30	18
Crude Protein (%)	22	12
ME (MJ/kg)	12.7	7
Oil (%)	0.5	0.3
Ash (%)	35	19
Sodium (%)	6.1	3.4
Crude Fibre (%)	0	0
