

# Regumix - Technical Data Sheet

## Feeding Suitability

Sheep & Cattle

Regumix is a highly palatable molasses based liquid feed, rich in energy and protein with added Regulated Release protein, designed to get the most from forages. At 27% crude protein and 13.1 ME, it is designed to complement grass, mixed forage diets and straw-based rations. Its excellent palatability combined with good levels of protein and energy also make Regumix ideal to balance buffer feeds for grazing animals.

Suitable for use in all feeding systems.

### Benefits include:

- Excellent source of effective rumen degradable protein (ERDP)
- Improves dietary protein and energy balance
- Cost effective alternative to a dry blend
- Improves palatability and intakes promoting efficient forage digestion
- Harnesses the benefits of urea as an excellent and cost-effective protein source
- Addition of non-protein nitrogen provides the rumen with a source of ammonia which acts as a growth factor for the rumen microbes

### Typical Feed Rates

	Dairy	Beef	Youngstock (>3 months)	Sheep
Feed Rate (kg/head/day)	1 - 2	1 - 2	Up to 1.0	0.2 – 0.3

### Specification

	Dry Matter Basis	As fed
Dry Matter (%)	100	67
Total Sugars (%)	53	35.5
Crude Protein (%)	27	18
ME (MJ/kg)	13.1	8.8
Oil (%)	0.3	0.2
Ash (%)	10.4	7
Sodium (%)	3.6	2.4
Crude Fibre (%)	0	0
DCAB (mEq/100g)	42.72

### Availability:

Regumix is available in bulk from 5-29t or as mini bulk from 1-4T.

Typical specific gravity of 1.34kg/L or density of 741L/T.
