

Caledonia Syrup - Technical Data

Feeding Suitability

Cattle

Caledonia Syrup is made from distillery and food industry syrups and can be used as a replacer for pot ale syrup. It is a readily available source of energy and protein, and is an ideal balancer to cereals and other low protein feedstuffs. It is highly palatable driving voluntary intakes, flows easily and helps to reduce ration sorting and dust levels.

Suitable for feeding via mixer wagon.

Typical Feed Rates

	Dairy	Beef
Feed Rate (kg/head/day)	Up to 10% DMI	Up to 10% DMI

Specification

	Dry Matter Basis	As fed
Dry Matter (%)	100	39
